

[OPTI]™ 6" Effect Wheels

To create spectacular constantly changing effects using the 6 inch wheel format OPTI offers two different sets of 10 interchangeable lightweight polycarbonate 6 inch wheels. Two special Wheel Rotators are also included which counter rotate the wheels close to each other at different set speeds.

Rotagraph FG6040

One pair create an exciting firework effect, another pair lightning. The rest are a variety of colour effect designs. All combine to make 45 possible effects.

Dynagraph FG6050

Any of the 45 possible combinations of two patterned wheels chosen rotate in opposite directions to produce a flickering matrix of colour and movement.
